

Godfrey Hirst CARPETS

LUXURY

*Carpet has never felt  
so soft*

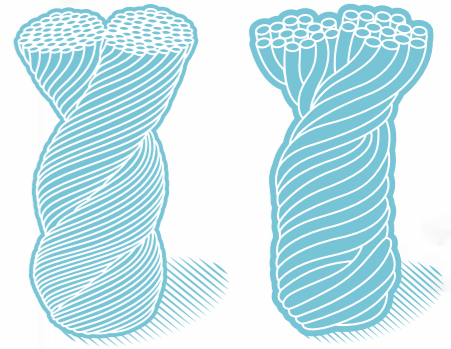

# LUXURY & LUXURY PREMIUM

Godfrey Hirst Luxury is an exclusive collection of the softest carpets, designed to cushion baby's first steps, or to sink your toes into after a long day.

The extra softness is thanks to a clever construction of more filaments per individual fibre, which our carpet engineers call 'low DPF' (denier per filament). But really, all you need to do is run your hands over this carpet for that instant 'Luxury' feeling.

Of course it just wouldn't be a Godfrey Hirst carpet without the latest range of colours and excellent durability. All Luxury and Luxury Premium carpets feature strong resistance to stains, fibre loss, UV light and ozone fading, so you can relax and unwind knowing your new carpet will stay beautiful for years to come.

For the ultimate in softness and comfort underfoot, look for the Luxury Premium mark instore - we're sure you'll agree that carpet has never felt so soft!

Luxury fibre

Regular fibre

*Select an exquisite twist  
or plush pile for sublime softness.*
